OVERVIEW

Kilimanjaro Group is a trusted name in Tanzania's mining industry, providing complete solutions that drive efficiency, safety, and productivity for mining operations. Our expertise spans Mining Explosives Supply, Mining Blasting & Consultancy Services, Mining Drilling Services, Mining Chemicals Supply, Mining Equipment Supply, Other Mining Supplies, and comprehensive Logistics & Transportation Services.

With our Head Office at Kahama – Mhongoro Street – Mbulu Msalabani, Mwanza, and a key branch at the Geita Gold Market in Geita Town, we are strategically positioned to serve the mining sector across the nation. We further extend our reach through regional branches in Dar es Salaam, Tanga, Dodoma, Nzega, and Musoma, ensuring timely and dependable service delivery wherever our clients operate.

Driven by a commitment to quality, innovation, and client satisfaction, Kilimanjaro Group is more than a supplier — we are a reliable partner in powering Tanzania's mining success.

MISSION & VISION

VISION

"To be the most trusted and innovative partner in Tanzania's mining industry, delivering world-class products, expert services, and sustainable solutions that empower mining operations and drive national growth."

MISSION

"Our mission is to provide safe, reliable, and high-quality mining supplies and services — from explosives and equipment to chemicals, logistics, and consultancy — while fostering innovation, ensuring environmental responsibility, and delivering exceptional value to our clients across Tanzania and beyond."

CORE VALUES

IMPACT

We have a passion for delivering exceptional results as we succeed together with our clients.

EXCELLENCE

We continuously develop our competences to be able to offer the best expertize and quality to our clients.

RESPECT

We treat everyone equally, with respect and equality.

DEDICATION AND ACCOUNTABILITY

A commitment in heart and mind to exceeding the expectations of our clients and partners. We take responsibility for our decisions and actions.

FLEXIBILITY

We have created a special and unique work environment that thrives on the freedom of creativity and originality, while enabling us to listen and be open to the possibility of new ideas.

INTEGRITY

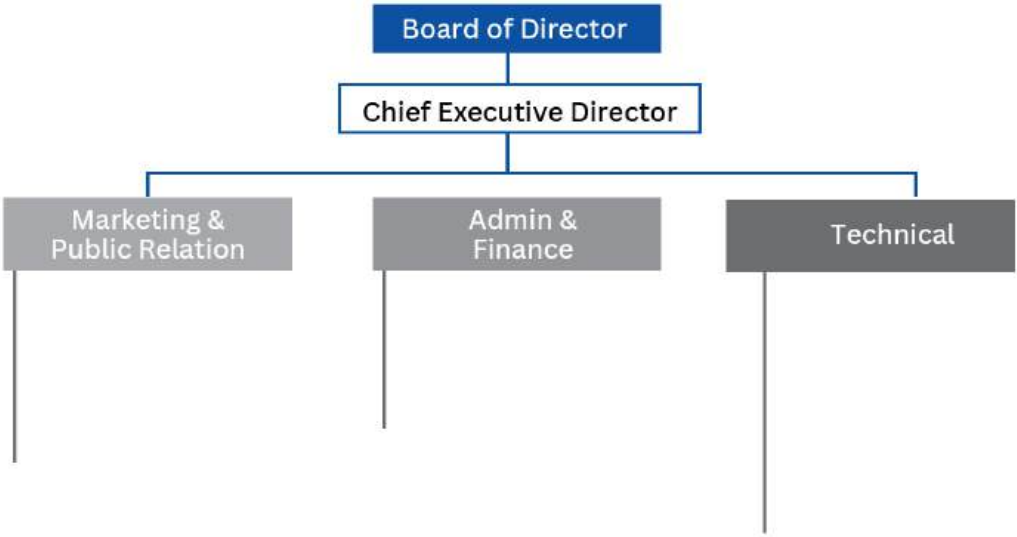
We demonstrate honesty and reliability in every action we take. We seek to earn the trust and respect of our clients. We work with great passion, enthusiasm and solidarity in an innovative, supportive and safe environment.

More Safety

MANAGEMENT TEAM

At Kilimanjaro Group, our management team combines deep industry experience with a commitment to excellence, safety, and innovation. We work hand in hand to deliver reliable mining solutions, maintain the highest quality standards, and build lasting partnerships. Guided by integrity and a customer-first approach, we ensure every project we serve contributes to the growth and success of our clients and the mining industry at large.

OUR COMPANY STRUCTURE



SAFETY MANAGEMENT

At Kilimanjaro Group, safety is at the core of everything we do. We are committed to protecting the lives of our employees, clients, and communities by adhering to the highest safety standards in every aspect of our operations. Through rigorous training, strict compliance with regulations, and continuous improvement of our processes, we ensure a safe working environment while delivering quality mining solutions. Safety is not just a policy — it is our culture.

More Safety

KILIMANJARO EXPLOSIVES

Explosives Supply

Kilimanjaro Explosives is a reputed supplier of Commercial explosives suitable for the critical operations in quarrying, Construction, and Mining industries. We strive to render total blasting packages from the state-of-the-art initiation systems with us, our customers are guaranteed to receive only the latest supplies in blasting technology, while receiving at highly competitive prices. These include the following: Bulk Emulsions, Packaged Explosives, Initiating Systems, Surface Electronics, Underground Electronics and Other Equipment.

Rock on Ground

We have the capability to take responsibility right from the blast design to rock fragmentation. We allow our Customers to focus on their core business operations. We do it by taking all their burden-off by providing everything from equipment, materials, and proficient staff to deliver quality blasting in a cost-effective manner.

KILIMANJARO EXPLOSIVES

Blast Audits and Optimisation

Our blasting experts assess the quality of blast design and implementation with the information collected from site and provides an insight into problems in blast fragmentation, excavator productivity, ore loss/dilution and damage. These observations provide practical solutions to improve the blasting process. Data analytics is a key component of drill and blast improvement through the integration of geological, blast design, fragmentation and load and haul data..

Blast Damage Control

We offer innovative blasting solutions to minimize the blasting damage and maximize the safety of mining operations. Blast damage to the highwalls impacts their stability and reduces safety of subsequent mining operations. We conduct benchmarking of blast damage within the current practices and identify the key blast damage mechanisms with the current blasting practices. We also provide recommendations and cost-benefit analysis of alternative blast designs.

Ore Loss and Dilution Management

Kilimanjaro Group also deals with the management of ore loss and dilution which is an important aspect of productivity and efficiency at mines. Blasting allows the ore to be efficiently excavated and processed. Another effect of blasting is that the material being blasted will experience some movement, therefore failure to take this movement into account when excavating will have significant economic consequences in terms of ore loss and dilution. We therefore suggest innovative solutions to manage ore loss and dilution to the mines.

KILIMANJARO EXPLOSIVES

Fragmentation Measurement and Modeling

Kilimanjaro Group has blast fragmentation models and fragmentation measurement systems that can be used to assess the optimum blast conditions required for a particular ore type. The aim is to produce a ROM size distribution that will maximise crushing/grinding circuit throughput and the efficiency of the plant. Analysis of such data provides insights, knowledge and direct feedback to operations enabling consistent high performance and at Kilimanjaro Group; we make sure we deliver what is suitable for our clients.

Underground Advance and Productivity

We provides specialist services to its underground mining and construction customers to minimise overbreak/ underbreak, increase advance rate, provide finer fragmentation and reduced total mining cost.
Our experienced engineers conduct benchmarking study initially and then provide alternative blast designs to achieve the project KPIs.

KILIMANJARO EXPLOSIVES

Vibration and Air Blast Control

Kilimanjaro Group offers consulting services for vibration control. Blasting applications includes: Compliance monitoring, protection of infrastructure and optimising charge weight distribution throughout the blast pattern. Our consulting service involves the measurement, analysis, modeling, prediction and control of ground vibration.

We also offer consulting services for airblast management. Blasting applications include: Airblast due to mechanisms such as stemming ejection, cratering and piston effects from bulk movement of large faces. The consulting service involves the measurement, analysis, modeling and control of airblast.

Blasting Consultancy

Our Technical team onboard operates with industry experts who have years of extensive experience in their field. Our foremost aim lies in making things are easy for our customers by sustaining cost- efficiency.

DYNO NOBEL IS OUR PARTNER

DYNO NOBEL Tanzania, a specialized division of Kilimanjaro Group, is a trusted name in the supply of high-quality mining explosives and professional blasting services. We provide a complete range of blasting products and solutions, including Bulk Emulsion Services, to ensure safe, efficient, and precise rock breaking for mining operations of all sizes.

With a strong focus on safety, reliability, and technical excellence, DYNO NOBEL combines world-class explosive technology with on-site expertise to deliver superior blasting performance. Supported by Kilimanjaro Group's robust logistics network, we ensure timely supply and expert service to mining sites across Tanzania, meeting the highest industry and regulatory standards.

DynoConsult
DynoConsult professionals are committed to optimizing your entire blasting process with their experience, knowledge and insight to drive world-class blasting results.

Underground
RAPIDSHAFT™ is a system comprised of delivery equipment, storage, perimeter wall control and products.

Portable Modular Emulsion Plants
Dyno Nobel's Portable Modular Emulsion Plants deliver high-quality bulk solutions on-site, anywhere.

KILIMANJARO CHEMICALS

MINING CHEMICAL SUPPLY

Kilimanjaro Chemicals is a key division of Kilimanjaro Group, specializing in the supply of high-quality mining chemicals essential for efficient mineral processing.
Our product range includes flotation reagents, leaching agents, frothers, and depressants, all sourced from trusted manufacturers to ensure consistent performance and reliability.

We work closely with mining companies to provide tailored chemical solutions that optimize recovery rates, improve operational efficiency, and meet strict safety and environmental standards.

ENVIRONMENTAL SOLUTIONS

Providing environmental monitoring equipment, pollution control systems, and remediation services to minimize the environmental impact of mining activities and ensure regulatory compliance.

GENERAL SUPPLIES

We specialize in providing essential equipment and services for safe and efficient mining operations. We provide a comprehensive range of services such as stationaries and office furniture's, building materials, spare parts, electronics accessories, ICT accessories and services, groceries etc.

CONSULTING SERVICES

Consulting Services: Offering expert consulting services in mining enginee- ring, geology, and regulatory compliance to assist clients in optimizing their mining operations, maximizing productivity, and minimizing costs.

KILINJARO GENERAL SUPPLIES

MINING SUPPLY

Kilimanjaro General Supply is a dedicated division of Kilimanjaro Group, providing a comprehensive range of high-quality mining supplies. From tools and safety gear to equipment accessories and essential consumables, we ensure mining operations run smoothly and efficiently.

Our focus is on reliability, timely delivery, and meeting the unique needs of each client, making Kilimanjaro General Supply a trusted partner for mining companies across Tanzania.

■ MINING EQUIPMENTS

We provide essential mining equipment and machinery, including drills, pumps, loaders, trucks, crushers, conveyors, and hoists, to support exploration, development, and production activities.

■ EXPLOSIVE EQUIPMENT

We provide high-quality equipment and tools essential for safe and efficient blasting operations. Our range includes detonators, blasting machines, safety gear, and other critical accessories, all sourced to meet international standards.

■ SAFETY SOLUTIONS

We provide high-quality safety gear and personal protective equipment (PPE) essential for mining and industrial operations. Our products include helmets, gloves, boots, protective clothing, and other safety accessories, all designed to meet international safety standards.

KILIMANJARO LOGISTICS & TRANSPORTATION 14

Kilimanjaro Logistics, Clearing & Transportation Services is a key division of Kilimanjaro Group, providing reliable, efficient, and secure logistics solutions for mining and non-mining industries. We specialize in transportation, clearing and forwarding, fleet management, warehousing, route optimization, and transportation scheduling.

Our operations are strengthened by **OLTRECK TRANSPORTERS**, a trusted part of Kilimanjaro Group, offering comprehensive transportation services across Tanzania. We handle mining equipment, explosives, chemicals, industrial goods, and other essential supplies, ensuring timely delivery while strictly adhering to safety and regulatory standards.

With a focus on optimizing operations, reducing downtime, and enhancing efficiency, Kilimanjaro Logistics delivers dependable logistics solutions that support the success of our clients across all sectors.

COMMUNITY SOCIAL RESPONSIBILTY INITIATIVE (CSR)

At Kilimanjaro Group, we believe that our success is deeply connected to the well-being of the communities in which we operate. Our Community and Social Responsibility Initiative focuses on creating sustainable, positive impact through projects that support education, health, environmental conservation, and local economic development.

We actively engage with community leaders, invest in social programs, and provide opportunities for skills development and employment in the regions we serve. From sponsoring educational resources and supporting local schools to contributing to healthcare facilities and promoting environmental stewardship, we are committed to being a responsible corporate citizen.
